

Clear Vision

An Overview

Regularly scheduled vision appointments are critical to your family's overall health. Eye exams can identify critical indicators of serious health concerns such as diabetes, glaucoma and arteriosclerosis.

SSA Clear Vision is an insurance plan that provides our members with benefits that go beyond our vision discount program. Through SSA's partnership with EyeMed Vision Care®, we offer quality care at a special value for you and your employees with a nationwide network of over 40,000 providers. SSA Clear Vision provides for all your eye care needs including exams, frames, lenses and contact lenses.

Additional savings are available, when this coverage is coupled with other SSA group insurance plans.
